

IB History of the Americas HL2 Summer Assignment 2011

Most students enrolled in this course will receive and begin their summer assignment at the end of the junior year in IB History of the Americas class. I have given explicit directions and handouts on how to complete the summer assignment and have approved student topics during this class. The only students who would not already have this assignment would be students who are new to the district or who did not have my history class last year. These students should contact me immediately to get more help with the summer assignment. Any student wishing to change their topic in any way must also contact me before proceeding with the assignment.

The summer assignment is to begin the Internal Assessment which will be completed the senior year. Students are to begin research on their approved topics, create a quality source list, complete an evaluation of two sources used, and complete 15 note cards of cited facts that support their topic choice. This assignment is due on the first day of school for a total of 50 points. Students who need to contact me during the summer for any reason may do so through email at rebeccahardison_63@hotmail.com or through my home phone at 689-3048 or through texting at (559)676-6545.
